MISSOURI STUDENT GRANT PROGRAM
SUMMARY OF ACTIVITIES
1972-1973

The Missouri Student Grant Program was established in 1972 in Senate Bill 613. Funds were appropriated for a limited pilot program. In 1972, 172 students received \$56,172 an average of \$327 each, for use at 33 Missouri colleges and universities.

Funds for the first full year of the Missouri Student Grant Program were appropriated in June, 1973. Approximately 70,000 application forms were distributed to high schools and colleges in the state. Twenty-one workshops for high school counselors and college financial aid officers were conducted throughout the state to acquaint them with the new Missouri Student Grant Program. Over 9500 applications were returned and processed during 1973-74.

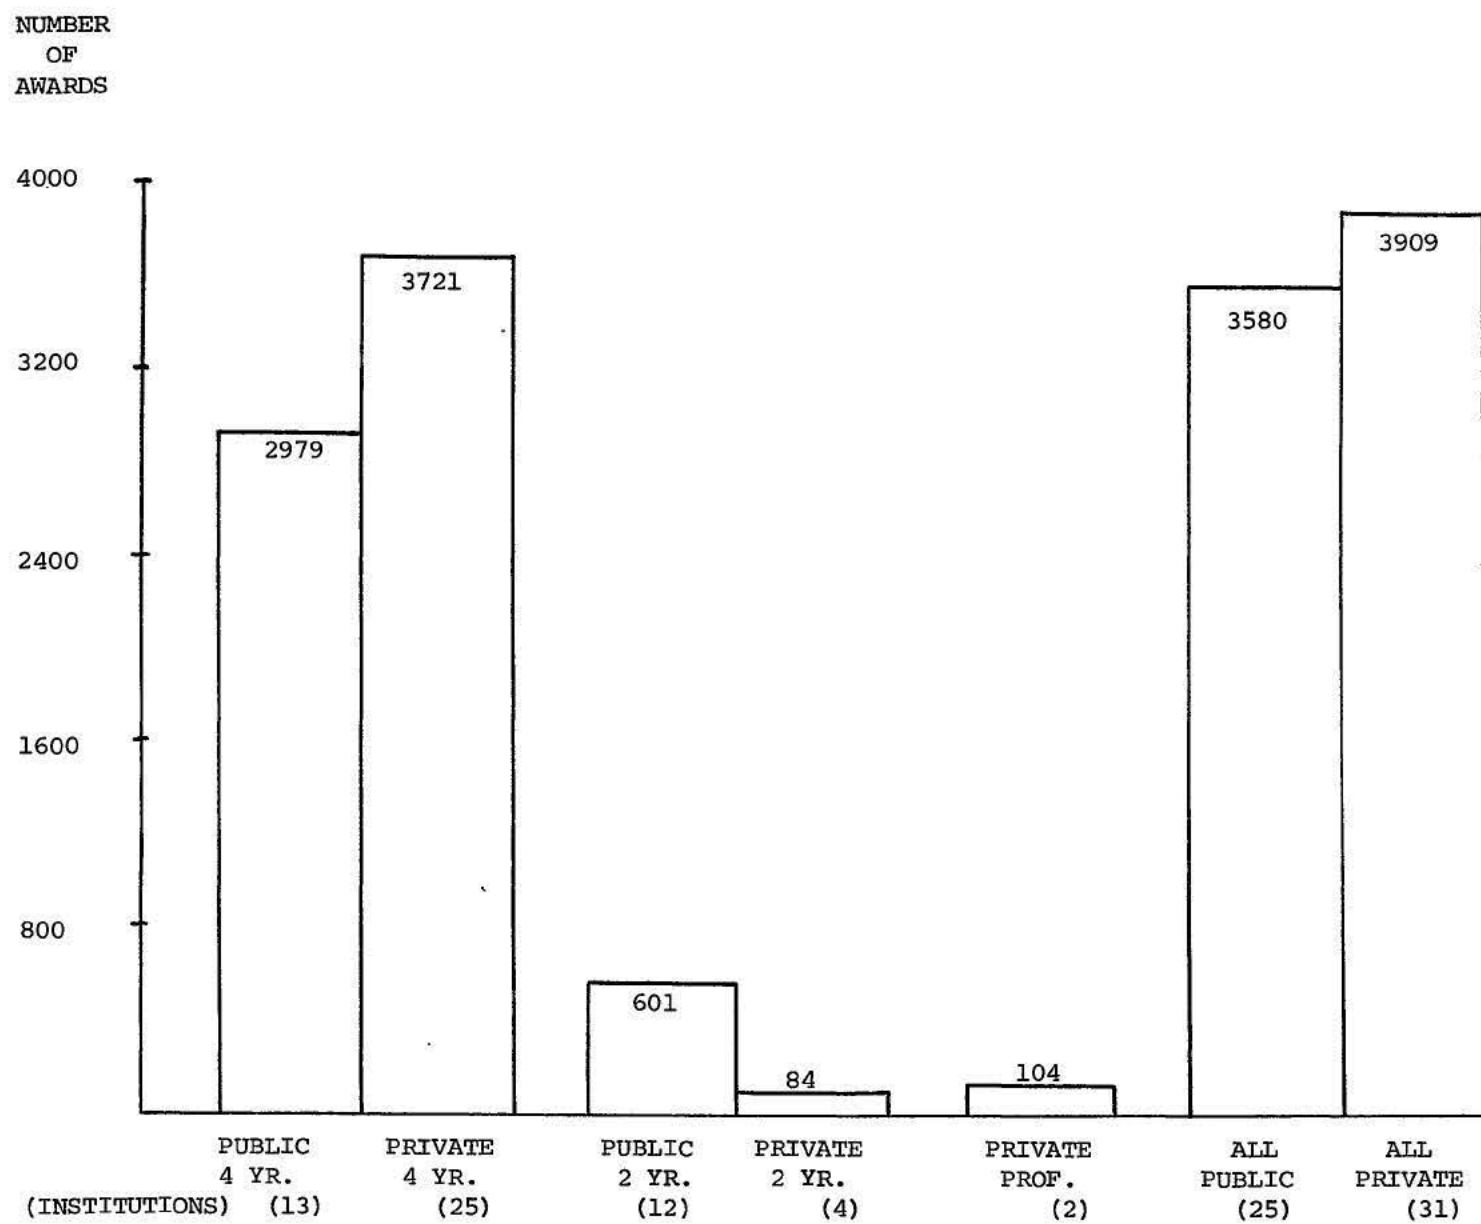

Applications were fairly evenly divided between students at public institutions (4579) and those at private institutions (4955). In both public and private institutions, 78 per cent of the applicants received grants.

Grants were made to 7489 students for a total amount of \$3,300,000. The average award to the 3580 recipients at public institutions was \$185, and the average award to the 3909 recipients at higher-tuition private institutions was \$675. The overall average award was \$440. Summaries by type of institution are found in Table 1 and Figure 1, below.

FIGURE 1. STUDENT AWARD DISTRIBUTION BY TYPE OF INSTITUTION

THE MISSOURI STUDENT GRANT PROGRAM

The following information is provided concerning the program and the guidelines for its operation. Section I is a summary of Senate Bill 613, 76th General Assembly, which explains the basic provisions of the program. Section II is a summary of the policies recommended by the Student Financial Aid Advisory Committee and adopted by the Missouri Commission on Higher Education under whose jurisdiction the program is administered.

Section I. Summary, Senate Bill 613, 76th General Assembly

The General Assembly finds and declares that the State can achieve its full economic and social potential only if every individual has the opportunity to contribute to the full extent of his capabilities and only when financial barriers to his economic, social and educational goals are removed. It is, therefore, the purpose of Senate Bill 613, 76th General Assembly, to establish a financial assistance program to enable qualified, full-time students to receive non-religious educational services in a public or private institution of higher education of their choice.

Qualified Missouri students may attend an approved private or public nonprofit institution located in Missouri which provides at least a collegiate level course of instruction for a minimum of 2 years, leading or directly creditable towards an associate or baccalaureate degree. The approved institution must meet the standards for accreditation as determined by the North Central Association of Colleges and Secondary Schools.

Only full-time students are eligible to receive financial assistance until they have obtained a baccalaureate degree, provided such time shall not exceed a total of 10 semesters or 15 quarters or their equivalent. Standards of eligibility for renewed assistance shall be the same as for an initial award.

An applicant shall be eligible for initial or renewed financial assistance only if, at the time of his application and throughout the period during which he is receiving this assistance, he is a citizen of the United States; is a resident of the State of Missouri; is enrolled, or has been accepted for enrollment, as a full-time, undergraduate student in an approved private or public institution; establishes that he has financial need; and has never been convicted in any court of an offense which involves the use of force, disruption or seizure of property under the control of any institution of higher education to prevent officials or students in such institutions from engaging in their duties or pursuing their studies. No award shall be made under this act to any applicant who is enrolled or who intends to use the award to enroll in a course of study leading to a degree in Theology or Divinity.

The grant, made to any qualified applicant, shall not exceed the least of: (1) the applicant's demonstrated financial need as determined by the Commission; or (2) one-half the fall 1971 tuition and required fee charges at the approved institution the applicant plans to attend; or (3) \$900. A recipient of financial assistance may transfer from one approved public or private institution to another without losing his eligibility for assistance under this act, but the Commission shall make any necessary adjustments in the amount of his award.

Section II, Administrative Policy

1. Financial assistance will be granted to qualified applicants showing the highest "financial need", defined in the legislation as the difference between the financial resources available to an applicant and the applicant's anticipated expenses.
2. Students must file an annual application. In case of limited funds, priority will be given to renewal applicants over new applicants in dispensing available funds in a given year. Renewal grants may increase or decrease depending upon the financial condition of the applicant, his spouse or parents and the availability of funds for that awarding year.
3. Applications for the academic year must be received in the Commission office after January 1 and before May 31 for full consideration. Applications received after May 31, will be processed in the order of date received and on available funds. In case funds are available for the spring semester, applications must be received in the Commission office by December 1. In case of limited funds, the date the application is received may be considered in making awards. Applications received after August 1, will be processed for spring grants only, dependent on available funds.
4. It is anticipated that all appropriated funds will be utilized during the normal academic year and no funds will be reserved for summer school grants.
5. A list of approved institutions will be distributed to all public and private high schools within Missouri. The approved institutions and code numbers are listed in this brochure.
6. Students may be considered for a grant until payment is made for 10 semesters or 15 quarters of college attendance, the required hours for the first baccalaureate degree have been met, or a baccalaureate degree is granted, whichever comes first. Grant eligibility is also terminated after the semester or quarter in which 150 semester hours or 225 quarter hours of college level course work have been completed.
7. Students must carry at least 12 semester hours (8 semester hours per quarter at Central Missouri State University) in order to qualify for assistance as a full-time student.
8. The student application and financial statement therein, which are submitted to the Commission, are confidential and are not released.
9. The 1973-74 grant will be based on the 1971-72 academic year tuition and/or required fees.
10. Community and junior college out-of-district fees, where applicable, are to be considered in determining the grant.
11. A basic budget, including room and board, books and supplies, transportation and personal expenses has been established. The same figure will be used for both commuter and dormitory residents. Tuition and/or required fees added to the basic budget will be the total institutional budget on which the student's need is determined.
12. It is not necessary that enrollment or admission be completed prior to submitting the application, but a grant will not be paid until actual attendance has been certified by the institution. The institutional choice may be changed anytime prior to August 1 for fall and December 1 for spring enrollment by submitting a CHANGE OF STATUS form to the Commission. A recomputation of the grant will be made and the student and new institution will be notified of the decision. Any requests received after the appropriate deadline will not be honored and will cause loss of the award if the student attends the new institution.
13. Students will be notified by letter of the amount of the award to attend the institution indicated on their application. The institution named on the application will receive notification of the student's award.
14. Individual student grant checks will be delivered to the recipient by the institution after certification of attendance. Certification of attendance will be established two weeks after the first day of classes. One half of the grant will be paid each semester or one-third each quarter depending upon the institutional system.
15. No payment can be made retroactive nor can reinstatement be retroactive to a previous semester. The only exception to this ruling is to correct a computer or clerical error made by the institution or in Commission procedures.
16. Upon written request received prior to change of status deadlines, the Commission will reconsider a student's financial need when significant changes occur in the family circumstances (death or disability of a wage earning parent, unemployment of 3 months, etc.)
17. If a student granted an award withdraws at anytime during the institutional refund period, the Commission will be refunded its proportionate share of the tuition and/or required fees. Acceptance of the award by the recipient will authorize the institution to make any calculated Missouri grant refund directly to the Missouri Commission on Higher Education.
18. To be considered a resident of the State of Missouri for a Missouri Student Grant, dependent students are considered residents only when parents reside within the state. Self-supporting student applicants must have resided in the State of Missouri, in some capacity other than as a full-time student, for at least one year prior to the semester or quarter in which a grant is awarded.
19. Even though a student may consider himself as self-supporting, the Commission continues to consider him as a dependent member of his family unless he is able to meet one of the five self-supporting student conditions outlined in Part I A of the application. This procedure must be followed so that all who desire consideration can be given fair and equitable attention. The Commission assumes the position it is not the proper role of the grant to replace the reasonable financial responsibility of parents.

20. Married applicants are not disqualified from consideration for a grant. The marriage of a student after the May 31 grant application deadline does not affect the grant or the grant period.
21. Any qualified recipient who does not accept the award, withdraws after enrolling at an approved institution, or chooses to attend an unapproved institution will be placed in an inactive status and will lose the grant. The inactive status continues until a new application is received for attendance at an approved institution. Reinstatement will be determined on the basis of an evaluation of a new application and the availability of funds.
22. Failure to observe the established policies may result in the loss of a grant.

SOME CHARACTERISTICS OF MISSOURI STUDENT GRANT RECIPIENTS:
SEX, CLASSIFICATION, ETHNIC BACKGROUND, INCOME AND DEPENDENCY STATUS

In 1973-74, 4038 women (54 per cent) and 3451 men (46 per cent) received awards. Of these, 6139 (82 per cent) were dependent single students, 658 (9 per cent) were self-supporting students, 492 (6 per cent) were married students, and 200 (3 per cent) were divorced, separated, or widowed. Sixty-two per cent of the award recipients were freshmen and sophomores, and 38 per cent were juniors and seniors.

The question concerning ethnic background was voluntary, and 96 per cent of the applicants responded. Seventy-six per cent reported themselves to be caucasian American, 20 per cent black, oriental, American Indian, or Spanish-surnamed American, and four per cent did not respond. The minority population of Missouri is approximately 11 per cent. The figures above are from Tables 2 and 3 and Figures 2 and 3, below.

Dependent applicants are processed on the basis of the amount their family can contribute from base year income and assets. Self-supporting students are processed on the basis of their total income and assets. The total income shown on a dependent student's application is likely to be higher than that for an independent student. Dependent and independent students are, therefore, shown separately in Table 4, below.

Dependent students (single and married) received 6259 awards, 84 per cent of the total. Of this number, 4165 (67 per cent) reported family incomes less than \$12,000, receiving grants totalling \$1,711,464, and 2,094 (33 per cent) reported family incomes of more than \$12,000 and were granted \$1,090,241. All of the 1230 self-supporting students reported incomes of less than \$12,000, and were granted \$497,301.

The Missouri Student Grant Program need analysis system has been so structured as to provide assistance to the most needy, but not to exclude the hard-pressed lower-middle income family. The success of this effort may be seen in the 2094 grants to students reporting family incomes of over \$12,000.

COST OF ATTENDING COLLEGE

The costs of attending college are high at both public and private institutions. The following table compares the MSGP average institutional budget for various categories of students at the different types of institutions.

TABLE 5. AVERAGE MSGP BUDGETS BY APPLICANT TYPE AND TYPE OF INSTITUTION.

	SINGLE DEPEND.	SINGLE SELF-SUPPORTING & SELF-SUPPORTING MARRIED (NO CHILD.)	DEPENDENT MARRIED	DIV/SEP. WIDOWED
PUBLIC				
4-year	\$2081	\$3256	\$5956	\$4156
2-year	1971	3146	5846	4046
TOTAL	2031	3206	5906	4106
PRIVATE				
4-year	3488	4663	7363	5563
2-year	3106	4281	6981	5181
Professional	3704	4879	7579	5779
TOTAL	\$3453	\$4628	\$7328	\$5528

The average cost of attending a private institution is \$1422 higher than the average at a public institution. The major cost differential between public and private institutions is the tuition charge. Since costs other than tuition and fees are fairly uniform in the Missouri Student Grant Program need analysis system, the higher awards to students attending private institutions merely reflect the higher costs of those schools.

TABLE 6. DISTRIBUTION OF TUITION RATES AT MSGP INSTITUTIONS

PRIVATE INSTITUTIONS							
\$0-500	\$501-1000	\$1001-1500	\$1501-2000	\$2001-2500	\$2500-3000	\$3000+	
0	1	11	9	6	2	1	
PUBLIC INSTITUTIONS							
\$0-500	\$501-1000	\$0-100	\$101-200	\$201-300	\$301-400	\$401-500	\$501-600
21	4	0	4	10	4	3	4

The principle source of funds to attend college continues to be family and individual contributions from income, savings, assets, and loans. The Missouri Student Grant is supplemented in many cases by various federal programs, such as Basic Educational Opportunity, the Work-Study Program, and by institutional scholarships, grants and loans. The 7489 Missouri Student Grant recipients had a total need of \$14,400,000, of which \$3,300,000 (23 per cent) was met by the Missouri grant.

c. 1973 Total Undergraduate Enrollment.

d. Error Due to Rounding

e. Average (Mean).

MISSOURI STUDENT GRANTS ARE:

- . To help pay the costs of college for undergraduate study at 56 colleges and universities in the state of Missouri
- . Made in amounts up to \$900 annually, but not to exceed the student's actual need or $\frac{1}{2}$ tuition and fees as of 1971-72
- . Assigned on the basis of financial need at the approved college of the student's choice and re-evaluated if the college choice changes and if necessary because of other financial aid
- . Sent to the educational institution for distribution to individual recipients after full-time enrollment has been confirmed
- . Renewable annually upon proper application, with priority given to renewal applicants

MISSOURI STUDENT GRANT APPLICANTS MUST MEET THE FOLLOWING REQUIREMENTS

- . Be a citizen of the United States and resident of the state of Missouri
- . Be eligible to enroll as a full-time (at least 12 semester hours or 8 quarter hours per semester) undergraduate student
- . Not have received a baccalaureate degree or completed 150 semester hours or 225 quarter hours of college level course work, or 10 semesters of assistance from the Missouri Student Grant Program
- . Demonstrate financial need as determined by the MSGP need analysis system
